Medical.

Ayer's CATHARTIC PILLS.

Are you sick, feeble, and complaining? Are you out of order, with your system deranged, and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some fit of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the fluids move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and obstructs its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering, and disease. While in this condition, oppressed by the derangements, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint, is also true in many of the deep-seated and dangerous distempers. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly, and many of them surely, cured by the same means. None who know the virtues of these Pills, will neglect to employ them when suffering from the disorders they cure.

Statements from leading physicians in some of the principal cities, and from other well-known public persons:

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her. ASA MORGRIDGE.

As a Family Physic.

From Dr. E W. Cartwright, New Orleans.

Your Pills are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease.

Headache, Sick Headache, Foul Stomach.

From Dr. Edward Boyd, Baltimore.

DEAR BRO. AYER: I cannot answer you *what* complaints I have *cured* with your Pills better than to say *all that we ever treat with a purgative medicine.* I place great dependence on that effectual cathartic in my daily contest with disease, and believing, as I do, that your Pills afford us the best we have, I of course value them highly.

PITTSBURG, Pa., May 1, 1855.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst *headache* any body can have by a dose or two of your Pills. It seems to arise from a foul stomach, which they cleanse at once.

Yours with great respect, ED. W. PREBLE.
Clerk of Steamer Clarion.

Bilious Disorders—Liver Complaints.

From Dr. Theodore Bell, of New York City.

Not only are your Pills admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of *bilious complaints* than any one remedy I can mention. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the people.

DEPARTMENT OF THE INTERIOR,
Washington, D. C., 7th Feb., 1856.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of *bilious disease* so obstinate that it did not readily yield to them. Fraternally yours, ALONZO BALL, M. D.,
Physician of the Marine Hospital.

Dysentery, Diarrhœa, Relax, Worms.

From Dr. J. G. Green, of Chicago.

Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doses for *bilious dysentery and diarrhœa.* Their sugar-coating makes them very acceptable and convenient for the use of women and children.

Dyspepsia, Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in distress. To regulate the organs of digestion and purify the blood, they are the very best remedy I have ever known, and I can confidently recommend them to my friends.

Yours, J. V. HIMES.

WARSAW, Wyoming Co., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and *purify the fountains of the blood.* JOHN G. MEACHAM, M. D

Constipation, Costiveness, Suppression, Rheumatism, Gout, Neuralgia, Dropsy, Paralysis, Fits, etc.

From Dr. J. P. Vaughn, Montreal, Canada.

Too much cannot be said of your Pills for the cure of *costiveness.* If others of our fraternity have found them as efficacious as I have, they should join me in proclaiming it, for the benefit of the multitudes who suffer from that complaint, which, although bad enough in itself, is the progenitor of others that are worse. I believe *costiveness* to originate in the liver, but your Pills affect that organ and cure the disease.

From Mrs. E. Stuart, Physician and Midwife, Boston.

I find one or two large doses of your Pills, taken at the proper time, are excellent promotives of the *natural secretion* when wholly or partially suppressed, and also very effectual to *cleanse* the *stomach* and *expel worms.* They are so much the best physic we have that I recommend no other to my patients.

From the Rev. Dr. Hawkes, of the Methodist Episcopal Church.

PULASKI HOUSE, Savannah, Ga., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating *neuralgic pains*, which ended in *chronic rheumatism.* Notwithstanding I had the best of physicians, the disease grew worse and worse, until by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them, I am now entirely well.

SENATE CHAMBER, Baton Rouge, La., 5 Dec., 1855.

DR. AYER: I have been entirely cured, by your Pills, of *Rheumatic Gout*—a painful disease that has afflicted me for years. VINCENT SLIDELL.

☞ Most of the Pills in market contain Mercury, which although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

Price, 25 cents per Box, or 5 Boxes for $1.
Prepared by Dr. J. C. AYER & Co., Lowell, Mass.

THE GRAND PROMOTERS OF HEALTH.
HOLLOWAY'S PILLS.

The grand secret of attaining happiness is to secure good health, without which life is stripped of its best pleasures. The first irregularity of any function should be checked and set right by appropriate doses of these fine purifying Pills, which strengthen the system by thoroughly cleansing the blood from all impurities. They balance disordered action, remove the cause of disturbance and restore its normal and natural power to every organ, without inconvenience, pain or any other drawback.

Derangement of the Bowels, Liver and Stomach Complaints.

This medicine is so well known in every part of the world, and the cures effected by its use are so wonderful as to astonish every one. It is pre-eminence as a remedy for bilious and liver complaints and derangements of the stomach and bowels, is no longer a matter of dispute or doubt. In these diseases the beneficial effects of Holloway's invaluable Pills are so permanent and extensive, that the whole system is renovated, the organs of digestion strengthened, and full and easy assimilation protected, so that both physical and moral energy are increased.

Determination of Blood to the Head.

This is generally occasioned by some irregularity of the stomach and bowels, which, if not quickly attended to frequently terminates fatally. A few doses of these famous Pills never fail to give tone to the stomach, regularity to the secretions, and purity to the fluids. Vertiginous of sight and other indications of approaching apoplexy, are entirely dissipated by a course of this admirable medicine.

The Female's Best Friend

For all debilitating disorders peculiar to the sex and to every contingency pertains to the life of women, youthful or aged, married or single, this mild but speedy remedy is recommended with friendly earnestness. It will correct all functional derangements to which they are subject.

Scrofula and all Skin Diseases.

For all skin diseases, however inveterate, these medicines are a sovereign remedy. While the Pills act upon the blood, which they purify, the ointment passes through the pores of the skin, and cleanses every structure, as water saturates he soil or as salt penetrates meat. The whole physical machinery is thus rendered healthy, regular and vigorous.

Coughs, Colds and Asthmas.

No medicine will cure colds of long duration or such as are settled upon the chest so quickly as these famous Pills. Even in cases where the first stage of asthmas has appeared these Pills may be relied on as a certain and never failing remedy, particularly if the Ointment be simultaneously well rubbed into the chest and throat night and morning.

Indigestion---Billious Headache.

These complaints may sometimes be considered trifling but it should be borne in mind that by inattention and neglect, they often end most seriously. Give early thought to a deranged stomach take Holloway's Pills, rub his clear breated Ointment over the pit of the stomach, and you will shortly perceive a change for the better in your digestion, spirits, appetite, strength and energy. The improvement, though it may be gradual will be thorough and lasting.

Holloway's Pills are the best remedy known in the world for the following diseases:

Ague	Female Irregularities	Scrofula King Evil
Asthma		
Bilious Complaints	Fevers of all kinds	Sore Throats
Blotches on the Skin	Fits	Stone and Gravel
Bowel Complaints	Gout	Secondary Symptoms

CURES AND COMFORT FOR THE BED-RIDDEN.
—BY—
Holloway's Ointment.

This wonderful Ointment acts like magic in relieving curing old sores, wounds, bad legs, ulcers and eruptions of the skin; when rubbed on the surface it penetrates and purifies each tissue on its passage, and exerts the most wholesome influence over the internal structure; it heals by cleansing all animal fluids with which it comes in contact, and thereby promotes a sound and permanent cure.

Gout and Rheumatism.

To sufferers from the racking pains of rheumatism and Gout this Ointment will prove invaluable. After fomentation with warm water the soothing action of this Ointment is most remarkable; it seems at once to lessen inflamation, ease pain, reduce the swelling, restore natural circulation, and expels the disease. For the above complaints Holloway's Ointment and Pills are infallible spe-

Diptheria, Bronchitis, Sore Throats, Coughs and Colds.

his class of diseases may be cured by well rubbing the Ointment, three times a day, upon the throat, chest and back of the patient. It will soon penetrate and give immediate relief. In all stages of Influenza, Colds and Bronchitis, this treatment may be followed with efficiency and safety—indeed, it has never been known to fail.

All Varieties of Skin Diseases, Scrofula and Scurvy.

This Ointment is a certain cure for Ringworm, Scurvy Scrofula or King's Evil, and the most inveterate skin diseases to which the human race is subject. They cannot be treated with a safer or more speedy remedy than Holloway Ointment, assisted by his celebrated Pills, which act opowerfully on the constitution and so purify the blood that these disorders are completely eradicated from the system, and a lasting cure obtained.

Dropsical Swellings.

Beware of this dangerous and stealthy complaint which frequently creeps upon us by slight squeamishness or trifling jaundice, of which little or no notice is taken until the dregs begin to swell. The cause of the evil must be looked for in the liver and stomach, therefore set to work earnestly by taking Holloway's famous Pills according to the printed instructions and rubbing the Ointment very effectively over the pit of the stomach and right side where those organs lie. Most dropsical cases will readily yield to the combined influence of the Ointment and Pills.

Piles, Fistulas, and Internal Inflammation.

These complaints are most distressing to both body and mind, false delicacy concealing them from the knowledge of the most intimate friends. Persons suffer for years from Piles and similar complaints when they might see Holloway's Ointment with instant relief, and effect her own cure without the annoyance of explaining their ailment to anyone.

Disorders of the Kidneys, Stone and Gravel

Are immediately relieved and ultimately cured if this Ointment be well rubbed twice a day, into the small of the back, over the regions of the kidneys to which it will gradually penetrate and in almost every case give immediate relief; but perseverance will be necessary to effect a to rough cure.

Both the Ointment and Pills should be used in the following cases:—

Bad Legs,	Cancers,	Scalds,
Bad Breasts,	Contracted and	Sore Nipples,
Burns,	Stiff Joints,	Sore Throats,
Bunions	elephantiasis,	Skin Diseases

EXTRAORDINARY
CURE OF A COUGH.

The following letter has been received from WILLIAM BOARDS, Esq., an extensive agriculturist and land agent, residing at Edmonton, Middlesex:—

"Nightingale Hall, Edmonton.

"Dear Sir,—I have recently suffered much from a most violent cough, proceeding from a tickling in my chest, which no remedy, out of many I resorted to, could allay. My head was constantly aching, and my whole frame entirely shaken. Having seen the good effects of your Balsam of Aniseed in several members of my family, I purchased a small bottle, and, when going to bed at night, took a teaspoonful in two tablespoonfuls of water, just warm. The effect was immediate; it arrested the tickling in my chest, I slept well, and arose perfectly restored in the morning, with the exception of debility, arising from fatigue by incessant coughing for some days previous. My cough entirely left me, and has never returned. Having since heard of a lady in the neighborhood who for a long time had laboured under a most distressing cough, and who had resorted to every remedy within her knowledge, I sent the remainder of the bottle to her; and that long-standing, obstinate, and (as she thought) incurable cough, was perfectly cured. You are at perfect liberty to make what use you may please of this communication, as the contents are strictly true. I shall take every opportunity of recommending your inestimable medicine, feeling as I do fully assured of its efficacy.

"I am, dear Sir, yours very truly,
"WM. BOARDS.

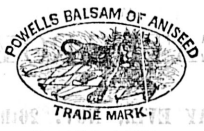

"To Mr. Thos. Powell."

THE epidemic which has prevailed to a considerable extent in this city and vicinity for some weeks, at last furnishes evidence of an abatement, and in a few days we hope to experience the satisfaction of announcing that it has entirely disappeared. In all, ten white persons are down with the disease, only two of whom have it in its confluent form, and one of these is already convalescent. The other eight are cases of *varioloid*. The mortality among the poor natives has been very great—more from want of proper habitations and care, than from the virulent nature of the attack. Among the civilized portion of the community there have been, from first to last, 45 cases and 12 deaths. Nine of the persons who succumbed to the disease had never been vaccinated. Of the remaining three, one became delirious, and leaping from his bed ran into the yard and could not not be coaxed back until the disease had "struck in;" another was exposed to a draught of cold air by careless nurses—as certain, in such cases, to produce death, as a draught of poison,—and a third was conveyed to the Hospital by a 'friend' in a wagon or buggy on a raw, windy day without sufficient covering, and died as he reached the door. During the present month (22 days) there have been only two deaths, against six in October, a falling off of nearly two-thirds. The gratifying decrease is attributable to the precautionary measure of vaccination and the excellent sanitary regulations of the Town Council, but we would earnestly advise persons who have been vaccinated and in whom the lymph has not 'taken,' to accept the result as no indication that their systems are not liable to infection. The lymph may be at fault, and they are as liable as ever to contract *varioloid* if not the confluent type of the disease, and they should try again with new matter. No injury can be inflicted by a continuance of the precautions; and we trust that neither the local authorities nor individuals will place so much reliance in the present gratifying state of the public health as to relax their vigilance one iota.

Œcumenical Council.

A writer in the Paris *Liberte* enumerates the Œcumenical Councils which have hitherto been held:—The Council of Nicæa (325), against the Ariads; 2, of Constantinople (381), against the Macedonians; 3, Ephesus (431), against the Neatorius and the Palagians; 4, Chalcedony (451), against Entychus; 5, second Constantinople (553), against the three chapters; 6, third of the same city (680), against the Nonothelstes; 7, second of Nicæa (687), against the Iconoclasts; 8, fourth of Constantinople (869) against Photius; 9, first Council of Luteran (1123) to regulate various matters of discipline; 10, second of the same (1139) against Arnaud De Brescia; 11, third of the same (1179), on discipline; fourth of same (1215), against the Albigenses; 13, Lyons (1245), against the Emperor Frederick II, the author of the famous work 'De Teibus Importribus' (Moses, Jesus, Mahomet); 14, second of the same city (1264), for union with the Greeks; 15, of Vienna, in Dauphine (1311), against the Templars; 16, of Pisa (1409), against the great schism of the West; 17, of Constance (1414), against the Hassites and against three anti-popes; 18, of Florence (1429) for a second union with the Greeks; 19, of Bale (1531), which, after twelve years of discussion, terminated in a schism, 20, of Trent (1141-1163), which had to undergo still more vicissitudes than its predecessor. In its earlier sittings it only counted four archbishops and twenty-eight bishops; but in its later stages it possessed one hundred and twelve prelates. Such was the last of the Oecumenical Councils. It had in reality accomplished, after eighteen years of intestine struggles, only one of the three objects which had led to its convocation. Heresey, far from being extirpated, increased every day; the civil war had become more inveterate, and the schism was henceforth irrevocable; some changes in discipline were all it effected.

MAGNITUDE OF LONDON.—Its houses number more than 350,000, and its streets if placed in line would extend from Liverpool to New York, and are lighted at night by 360,000 gas lamps, consuming in every twenty-four hours 13,000,000 cubit feet of gas. Of the water supply, 44,383,328 gallons per day. The traveling public sustain 5000 cabs and 1500 omnibuses, besides all the other sorts of vehicles which human need can require or human wit can invent. Its hungry population devour in the course of every year 1,600,000 quarters of wheat, 240,000 bullocks, 1,700,000 sheep, 28,000 calves, 35,000 pigs, 10,000,000 head of game, 3 000 000 salmon, and innumerable fish of other sorts, and consume 43,200,000 gallons of beer, 2,000,000 gallons of spirits, and 65,000 pipes of wine. As a consequence, 2400 doctors find constant employment. London, finally, supports 852 churches which are presided over by 930 divines of greater or less note.—*The Nation.*

Mr REED, chief constructor of the navy, and Mr G G Bardin, inspector of machinery afloat, have been made C. B.'s.

THE TROUBLE IN THE OFFICE OF THE BRITISH CONSUL.—The man Wright, who made some serious and threatening demonstrations against the life of the British Consul, Wm Lane Booker, yesterday, was brought before the Police Court this morning for trial. Mr Mason, the Consul's Secretary, testified that Wright entered the office and inquired for Mr Booker, saying he had suffered great injustice in this country, had got tired of it, and wanted to leave it for England again. Mr Mason told him to come again when the Consul would be in, but assured him he needed no passport to England any more than to Oakland. Wright went away and returned. That time he became very violent, and exhibiting a large bowie knife declared he would kill the Consul and four or five other persons. Mr Mason advised him to keep cool and to go on the street awhile. The man went out of the office, and Mr Mason followed him at a safe distance around several blocks till he saw a policeman and told him to arrest Wright, which the officer did. A large bowie knife was found in his belt under his coat. Wright says he has been in Sacramento, Montana and Colorado, and that always while traveling the people had treated him with great injustice. Judge Provines thought the prisoner insane, and directed that he should be taken before the Commissioners of Lunacy. *San Francisco Bulletin*, 1st.

ENGLISH SHIPPING.—An interesting Parliamentary return has been recently published in the London papers, upon English shipping. The return shows that up to the 31st Dec. 1867, there were registered in England 7,522 sailing vessels, 868 of and under 50 tons burden; and 11,360 steam vessels above 50 tons, exclusive of Scotland and Ireland. A total of 900 wooden and 365 iron vessels were registered during the year as new ships, representing additions to our merchant navy of 155,898, and 176 334 tons respectively. During the year 34,427 British and 24,511 foreign vessels entered inwards, representing respectively 11,197,865 and 5,140,952 tons; and a total of 33,502 British, and 24,847 foreign vessels cleared outwards, representing 11,172,205, and 5,245,090 tons respectively. From these figures some idea may be formed of the colossal commerce of the United Kingdom.

PALLISER GUNS.—Sir John Pakington has ordered the conversion of 212 65-cwt cast-iron guns into 64-pounder Pallisers, and the work is to be proceeded with at once. In order to determine on the best gun, there was a competitive trial between two wrought-iron 64-pounders and one 64-pounder converted from an old 32-pounder gun. The latter proved its superiority in range, accuracy, and in endurance, there being little the matter with it after firing 2,280 rounds. Its two rivals burst, neither of them having fired as many rounds; and in consequence no more wrought-iron 64-pounders are to be made.

DEATH OF A WELL-KNOWN ENGINEER.—John P Brodie, the well-known Scotch engineer, who has spent most of his life on this coast in connection with mining, died this morning of paralysis. Mr Brodie was formerly in the employ of the firm of Bolton, Barron & Co, and engineer of the New Almaden mines. He was a man of great mechanical skill and experience, and during all his sojourn never forgot his native heather. He was Scotch to the backbone, and to the last. He left two daughters, one single, the other married, in San Jose.—*S F Bulletin.*

DISCOVERY.—It is said that M. Flourens has just made a discovery, in France, by which fractured bones may be entirely formed anew in the human system. It consists in taking out the fractured or diseased bone, but leaving the substance which is immediately around the same, and from which the secretion is formed which produces the socket around a broken bone in ordinary cases. From this covering is deposited a substance which forms a new bone in place of that extracted. The Academy of Medicine, at Paris, has recently certified to the discovery of M. Flourens.

DESSICATED Codfish is a patented article prepared East that is becoming popular. Four pounds of the raw are reduced to one pound. A certain super-rankness that is objectionable is lost in the process, and there is an absence of unpleasant odor in cooking. It becomes tender, and many confections are made from it which seem to please even fastidious palates.

ARRIVAL OF THE S S ACTIVE.—The steamship Active, Capt R S Floyd, arrived at 4¼ o'clock yesterday afternoon from Portland and Astoria, bringing 49 passengers, eleven bags of mail matter, 209 tons of freight, principally Oregon produce, and merchandise for Cariboo. The English goods before reported detained at San Francisco awaiting shipment per direct steamer for Victoria, were not brought on. The Active will sail for Astoria to connect with the Oriflamme, at early daylight to-morrow morning, and intending passengers should go on board to-night.

COMING HOME.—Among the passengers by the steamer Arizona from New York, on the 31st of October, was the Right Rev Bishop Demers, of the R C Mission of British Columbia. Bishop Demers has passed several years in Europe with the double purpose of recruiting his health and collecting funds for the erection of a Cathedral and College in this city and the establishment of Missions throughout the Colony. We are happy to learn that in both objects the Rev gentleman has been eminently successful.

RETURNING.—During the last few days a number of Indian families have returned to the city, and are quietly resuming their old haunts. In the alley running from Johnson to Cormorant streets a family have taken one of the houses which was cleansed and purified after the late Indian exodus; another family, with filthy blankets, and a still more filthy canoe can be see camped behind the Auction-rooms of J P Davies & Co. No sanitary measures can be carried out effectually while these people are allowed to reside amongst us with impunity.

VERDICT IN THE CASE OF COMMANDER MITCHELL.—In the case of Commander J G Mitchell, of the United States navy, who was killed on the evening of the 21st instant, at the corner of Sutter and Stockton streets, the Coroner's jury found the following verdict last evening: 'Commander Mitchell came to his death from a fracture of the skull, in consequence of a blow inflicted by W G Smith; and that Thomas Savage was accessory to the death.'—*S F Times.*

FROM NANAIMO.—The steamer Sir James Douglas arrived yesterday evening. She brought down about 20 passengers, among whom are Mr and Mrs Nichol, on their way to San Francisco, and a large freight of produce, live stock and game. She reports the Atlanta loading with coal for San Francisco, for which place she would probably leave next week. The steamer Grappler was on her way down with coal for the Active.

CONSCIENCE MONEY.—The money remitted to the Chancellor of the Exchequer by different people for conscience sake, during the financial year 1867 8, amounted to £4,638. The previous year it amounted to £5,071, which is more than the Chancellor's salary. We never heard of any conscience money being returned in this Colony. Either we are very honest or very remorseless.

PROMOTION.—We learn that Capt Floyd of the Active has been promoted to the command of the Company's S S Montana, running between San Francisco and the Sandwich Islands. Capt Floyd is known here as a courteous gentleman and a skillful commander, and the pleasure we experience at his advancement is not unmixed with a feeling of regret at his withdrawal from this route.

RACE.—A match is made up between Lucy and Volreece, to run one mile, for $250 a-side. The stakes are deposited in the hands of a substantial citizen, and the race will be run on 1st December next, over the Beacon Hill Course.

THE ALL ENGLAND eleven have again beaten American cricketers—this time at Philadelphia—with two wickets to spare. The match was the best contested in the annals of cricketing in America.

THOMAS H McCANN, formerly of this city and now a resident of San Francisco, has fallen heir to a large property in Ireland. One account says an Earl's title goes with the estate, but we doubt *that.*

FOR THE MAINLAND.—The steamer Enterprise left for New Westminster yesterday morning, taking a few passengers and between sixty and seventy tons of freight.

NOT COMING.—Ben Holliday is not coming North, after all—he having telegraphed to that effect yesterday.

Why is a promising cricketer like flour and eggs? Because he is calculated to make a good batter.

THANKSGIVING DAY (American), falls on Thursday next, the 26th.

THE steamer Isabel towed the Bolivia to Burrard Inlet yesterday.

WANTED—Fifteen thousand of Hibben's Pacific Rail Road men for the consumption of Heywood's celebrated Pork Sausage, the Elixir of Life. It has been admitted by all the Medical Students of the Theatre Royal that Heywood's Pork Sausage is the only safe and sure remedy for all prevailing complaints. Three links fried nicely brown and taken internally every morning for breakfast will relieve hunger and restore the hair to its natural color. These unequalled and remarkable sausages are kept at all respectable first class Hotels, Restaurants and Boarding houses. Go in, if you want black hair. *

OVERLAND RAILWAY.—There are 15,000 men employed in the construction of the Overland Railway. It is encouraging to those who are in constant communication with the Eastern Markets to know of such an early prospect of greater future dispatch. Had this line been completed three months since, we should have been able before this date, respectfully to call the attention of the public to the great variety of Styles, and the Choice Patterns of the best Sheffield Pocket Cutlery, Scissors, &c., ex 'Bolivia.'—T. No Truth in the San Juan Rumor.

Eastern States.

WASHINGTON, Nov. 19—A special dispatch says that Secretary Seward pronounces as an entire fabrication the statement that the British Government had agreed to withdraw her joint occupancy of the Island of San Juan.

WASHINGTON, Nov 19—Gen Halleck, in his Report to the War Department recommends the establishment of military posts in the vicinity of the largest rivers in Alaska, as preventative of war and the keeping of vessels of war in those waters. A Territorial Government he regards as useless.

The English Elections.

Europe.

LONDON, Nov 18—John Jackson, Bishop of Lincoln, has been promoted to the See of London. Archdeacon Wadsworth has been appointed Bishop of London.

The Parliamentary Elections, which are continued to-day, have been favored with good weather. The returns show 207 Liberals elected; a gain of 40. Tories, 77; a gain [?] of 22. The working men's candidates have been badly beaten. The Liberals have carried Edinburgh, Glasgow, Birmingham, Sheffield and Bristol. Roebuck has been defeated in Sheffield.

Riots occurred in Birmingham. Some shops had been attacked. At last accounts the police and the mob were fighting.

The election in Belfast has been postponed on account of riots. Troops occupy the town. Much damage has been done by the roughs. The Tory committee rooms were demolished, the inns sacked, and the liquor drank and thrown into the streets. Many persons were injured, two seriously. At last accounts the mob were dispersing.

There was a serious affray at Bolton; many persons were wounded. The Riot Act was read, and the troops were called out, when order was restored,

London is doubtful. It is thought that the Liberals have been chosen.

LONDON, Nov 16—There was a slight disturbance at Manchester to-day, but it was quieted by the efforts of the police. No other serious disturbance has been noted in any part of the country.

Despatches from Paris state that Ministers of Justice and Ministers of the Interior have issued instructions to the Prefect of Departments requesting them to suppress all public manifestations in regard to the *coup d'etat* of 2nd December.

The office and material of the Temples [Temps?] newspaper have been seized by the police and the publication of the journal suspended. The French Government has also commenced prosecutions against other journals for alleged violation of the press law.

Despatches from Bombay state that the war in Northern India is ended.

The *Morning Herald* of Nov 17th says, the Ministry may meet hereafter; the verdict was not against them yesterday, on the contrary, the party now in power has been able to command the Government for years, though in the minority more than now; the Conservatives gain more than will counterbalance Conservative losses.

London City, which is entitled to four members of Parliament, has, so far, elected three of the Liberal candidates.

Richard Baggaly, Conservative, is defeated in Hereford.

Later returns show that Edmond Beales, Liberal candidate for the Tower Hamlets, has been defeated.

Bull Run Russell, Liberal candidate, is defeated in Chelsea.

Thomas Millner Gibson, Liberal, is defeated at Ashton, under Lynn.

Lord Stanley, present Foreign Secretary, is elected from Lynn.

John Stuart Mill has been defeated, but it is understood that if Gladstone is declared elected in Southwest Lancashire, the Liberals will run Mill in Greenwich, where he is sure to be elected.

LONDON, Nov 18—The returns show that the Liberals, so far, have elected 238 members, gaining sixty seats. The Conservatives have elected 135, gaining 32.

PARIS, Nov 18—Letters from Madrid report that great agitation prevails throughout Spain.

LONDON, Nov 19—The *Times* says that 378 members of the new Parliament have been chosen. The Liberal majority is 113.

Reverdy Johnson has accepted an invitation to dine with the London Workingmen's Society on the 28th.

NAPLES, Nov 19—The eruption of Vesuvius is increasing in violence and grandeur.

California.

SAN FRANCISCO, Nov 19—Arrived, bark Kenilworth, 135 days from Liverpool; bark Libby Castle, 164 days from Liverpool.

Telegraphed—Ship Panama, from Bombay.

A dispatch from Half-Moon Bay reports the total loss of the ship Hellespont, from Australia. She went ashore at 5 o'clock this morning, and broke up immediately. Eleven men, including the Captain and mate, are missing, and are supposed to be lost.

DELAYED DISPATCHES.

Eastern States.

NEW YORK, Nov 14—A terrible collision occurred on the East river this morning, between the Fulton ferry boats Union and Hamilton, as the latter was entering the slip on the New York side. Three persons are dead, and thirty-five seriously wounded. It is believed that four or five of the wounded cannot long survive. The accident was the result of criminal carelessness, and causes much indignation.

SALT LAKE, Nov 11—The body of a murdered man was found yesterday near this city, evidently murdered for money. The body is exposed to-day at the City Hall for identification.

Three men were taken out of jail at Bear River City last night, and hung. Their names were: Jimmy Powers, of Denver (not the clog dancer), Jimmy Reed (not the prize-fighter) and Jack O'Neil. They were found suspended over the jail. All three were arrested for garroting. They all had notices attached to their bodies, giving the balance of the gang ten hours to leave, and if found after that time they would meet the same fate.

ITHICA, N Y, Nov 10—Prof Goldwin Smith arrived to-day. He will at once enter upon his duties in the Cornell University.

Europe.

PARIS, Nov. 15—Rossini, the great Italian music composer, aged 77 years, died to-day.

BERLIN, Nov. 15—The Prussian Budget was submitted to the Diet to-day. Baron Vanderbide, Financial Minister, in his remarks, said that the financial difficulties of Prussia were merely transitory affairs in Europe, favorable to the preservation of peace. Nothing official was made public or submitted to the Diet with reference to the Umpireship of King William, or on the question of the claims of the United States against Great Britain on account of depredations by the Alabama.

Cider Manufacture.

EDITOR BRITISH COLONIST.—As a pendent to my letter on the culture of apples, and published in one of your former issues, I beg to make a few remarks relative to that fruit, for the purpose of cider making, and which as a commercial speculation cannot fail to be highly remunerative if entered upon with the requisite amount of energy, skill perserverance and capital, in fact with the same amount of such requisites as business men usually take with them into commercial enterprises generally.

From the small quantities already made here, it has been proved that the juice of apples grown in this Colony is peculiarly fitted to make good cider, and with a climate exactly suitable for the purpose, success is certain. If the cider manufacterer understands his business, and various fermentation being now so well understood, thanks to Liebig and others, there can be no excuse for ignorance on this point, he will produce a beverage far superior to half the light wines of Europe, and one equal to any champagne brought into this market.

With respect to a market for large quantities of cider I apprehend no difficulty will be experienced on that score; a first class article will sell well, I am told, at San Francisco.

The first step towards success is to look out for a good clear piece of land, near some convenient place for shipping the goods, well suited to the growth of the apple tree, and of any extent from one huudred acres upwards, and after fencing, say one hundred acres, prepare the land as described in my former letter, and plant it with apple trees in rows at fifteen feet apart every way. For the first three years the land between the trees should be tilled with such crops as can most readily be turned to profitable account, at the end of the third year the whole surface should be laid down to permanent grasses, and grazed with sheep. These and the crops, with proper management, ought to pay all the expenses incurred in preparing the soil for the trees, besides all the annual current expenses of management, etc. If properly chosen and planted the trees on the third year will produce on the average, say, one bushel of apples, and as every acre will contain one hundred and ninety-three trees, there will be 19,300 bushels of fruit on the 100 acres; allowing twenty-four bushels of apples to a hogshead of 63 gallons, we have 800 hogsheads of cider. For every gallon of this, I am informed, 50 cents can be easily obtained, and we have the respectable sum of $25,200 as the gross returns of the cider, and in addition to this amount the profit on sheep, and a considerable item can be realized by the refuse fruit from the cider presses being converted into pork. What the returns would be during the succeeding five years may be guessed at from the above figures, and they will go on increasing for many years, realizing a handsome competency for a man's lifetime and his children after him.

The capital necessary to put the thing in working order may be set down at $10,000; but if he cannot muster so much at once a man may begin by planting 25 acres at first and plant more as his means increase. In these days of colonial depression and grumbling when men are constantly calling on the gods and Confederation for assistance, it might not be time wholly lost if some among us would give this subject serious attention, help ourselves, become wealthy men, and altogether independent of the gods and politics.

H. MITCHELL,
Victoria Nursery.

November 4th, 1868.

NOTE—To protect the stems of the trees from injury by the sheep, slightly smear them occasionally with a mixture of tar and grease. H. M.

EDITOR BRITISH COLONIST:—I omitted in my former letters to make any reference to the important part played in the future health and durability of fruit trees by the stock in which they are drafted, and to advise all purchasers to be careful in making their selection, especially with the cherry, which often comes to us on a stock ill calculated to produce a healthy tree.

H. MITCHELL.

Nov. 4th, 1868.

HOLLOWAY'S OINTMENT AND PILLS.—Outward Infirmities.—Before the discovery of these remedies many cases of sores, ulcers, &c., were pronounced to be hopelessly incurable, because the treatment pursued tended to destroy the strength it was incompetent to preserve, and to exasperate the symptoms it was inadequate to remove. Holloway's Pills exert the most wholesome powers over the unhealthy flesh or skin, without debarring the patient from fresh air and exercise, and thus the constitutional vigor is husbanded while the most malignant ulcers, abscesses, and skin diseases are in process of cure. Both Ointment and Pills make the blood richer and purer, instead of permitting it to fail into that poor and watery state so fatal to many labouring under chronic ulcerations. 8

A Good Report from Cowichan.

COWICHAN, Nov 19th, 1868.

EDITOR BRITISH COLONIST:—My attention has been directed to two items in your last 'Weekly' which are calculated (though I believe most unintentionally) to create a wrong impression as regards:

1 The number of deaths by small-pox among the Indian tribes in Cowichan.

2 The absence of any attention to their medical necessities.

(1) On careful inquiry I have only been able to verify 6 deaths in the Quamichan village, and not more than 5 in that of the Somenos tribe. I am happy to say that as far as I know there are no fresh cases.

(2) Mr Lomas, the Catechist of the Anglican Indian Mission, has been unremitting in his attendance on the sick, not only during the day, but at all hours of the night. The cases of recovery are numerous, and that, humanely speaking, is entirely owing to his personal care of them while sick, and his timely supply of proper nourishment [so far as our abilities reached] while they were convalescent. He has also vaccinated over 300 persons. Our want has not been that of a vaccinator but of vaccine, of which we have often had a very short supply.

I remain, &c.,
WILLIAM S. REECE,
Archdeacon of Vancouver.

Night Watchman.

EDITOR BRITISH COLONIST:—The item which appeared in your paper of to-day being calculated to create a wrong impression in the minds of parties residing on the late Mr McGee's 'beat,' permit me to say that since the death of that gentleman I have been employed by two-thirds of his subscribers to watch their premises, and that eleven days ago I was duly sworn in by Mr Pemberton, and have continued to discharge my duty ever since.

D. CAMERON.

Nov. 20th, 1868.

Dangerous.

EDITOR BRITISH COLONIST:—There are two stacks of chimneys standing erect like gaunt giants upon the land where the late fire occurred on Government street. It is somebody's business, Mr Editor, to see that these dangerous monuments are not allowed to remain, ready at any moment to fall, and maybe to crush to death or maim for life the poor laborers who are now busy removing the debris within a few feet of their bases. The Municipal authorities or the Fire Wardens should forthwith attend to the demolition of both stacks in order to avoid the danger spoken of.

FIREMAN.

IT is stated that the following appointments have been made under the recent Bribery Act:—The Solicitor General to be the additional Judge of the Court of Common Pleas; Mr Serjeant Hayes to be the additional Judge of the Court of Queen's Bench; and Anthony Cleasby, Esq., Q C, to be the additional puisne baron of the Court of Exchequer.

A LADY agent, who has been travelling extensively through the interior of Pennsylvania, selling corsets at a remarkably low price, and fitted them on the purchasers, has been discovered to be a man in disguise. He has fitted several thousand young ladies.

AMONG the minors in the peerage who attain their majority during the autumn are the Marquis of Bute and the Earl of Ilchester, both in September; and the Duke of Norfolk, who attains his majority on the 27th of December.

MISS MENKEN was buried in the portion allotted to Jews, in the cemetery of Pere la Chaise. Her horse, led by a servant, followed the hearse.

Sober Facts for Thinking People.

Year after year, for an eighth of a century, the Press of the country has chronicled the beneficial effects of HOSTETTER'S STOMACH BITTERS. Editors, authors, physicians, merchants, officers of the army and navy, chemists, counselors, ministers of the gospel, in short, a great cloud of witnesses of every profession, trade and calling, have testified to its efficacy as a tonic and regulating medicine. The names and statements of these witnesses have been published in the public prints. Many of them are well known to the whole public. Their testimony has never been challenged or impugned. Upon evidence far less weighty men are acquitted or condemned by conscientious juries.

HOSTETTER'S STOMACH BITTERS is not, however, upon trial. It has been tried and pronounced on the authority of those whose lives and health it has preserved, a pure, harmless, and eminently salulary preparation. Attempts have been made to rival it. They have failed. Can it be necessary to say why they have failed? Ask the recovered dyspeptics, bilious sufferers, victims of fever and ague, and nervous subjects who have experienced its effects, what *they* think of it. ASK THEM and be guided solely by what they say. Sold everywhere. *

STOMACH BITTERS!

A PURE AND POWERFUL TONIC

CORRECTIVE AND ALTERATIVE,

Of Wonderful Efficacy in Diseases

OF THE

STOMACH, LIVER AND BOWELS.

PROTECTIVE PROPERTIES.

Prevents Fever and Ague and Billious Remittent Fevers Fortifies the System against Miasma and the evil effects of unwholesome water; invigorates the organs of digestion and the bowels;

Steadies the Nerves and Tends to Prolong Life.

REMEDIAL PROPERTIES.

Cures Dyspepsia, Liver Complaint, Sick and Nervous Headache, General Debility, Nervousness, Depression of Spirits, Constipation, Colic, Intermittent Fevers, Sea Sickness, Cramps and Spasms, and all complaints of either sex arising from Bodily Weaknesses, whether inherent in the system or PRODUCED BY SPECIAL CAUSES.

As a genuine Tonic, HOSTETTER'S BITTERS produce effects which must be experienced or witnessed before they can be fully appreciated.

Persons of feeble habit, liable to Nervous Attaks, Lowness of Spirits, and Fits of Languor, find prompt and permanent relief from the Bitters. The testimony on this point is most conclusive, and from both sexes.

In Districts infested with Fever and Ague, it has been found infallible as a preventive and irresistible as a remedy. Thousands who resort to it if under apprehension of an attack, escape the scourge; and thousand who neglect to avail themselves of its protective qualities in advance, are cured by a very brief course of this marvelous medicine.

Acting as a gentle and painless aperient, as well as upon the liver, it also invariably relieve the Constipation superinduced by irregular action of the digestive and secretive organs.

THE KING OF PERFUMES.

THE VICTORIA PERFUMERY is now adopted by the ELITE of the arstocracy and fashionable world on account of the superior articles for the toilet each of which has been made a speciality.

The new perfumes prepared with the ESSENCE of YLANGYLANG extracted by distillation from the UNONA ODORATISSIMA and imported from the Philippine islands are beyond comparison for their delicacy and sweetness. We therefore recommend the BEAU MONDE to try as a handkerchief perfume.

THE EXTRACT OF YLANGYLANG

AND

THE MANILLA BOUQUET

Besides these, which are the exclusive property of their house, Messrs Rigaud and Co prepare in a most approved and superior manner all the fashionable scents, amongst which we may mention the

RIGAUD'S TOLUTINE

As an admirable toilet-water, the true talisman of beauty, preserving the freshness of the skin and the fairness of the complexion. It is the perfection of science adapted to the toilet, and is incontestably superior to Eau de Cologne, or the most esteemed of vinegars and the Florida water.

THE MIRANDA HAIR-OIL AND POMATUM.

Is a remarkable preparation which may be called a real treasure for the hair. It is composed of tonic and fortifying compound, and it beautifies and preserves the hair at the same time as it imparts to it a most refreshing pefume.

MIRANDA SOAP,

COMPOSED MAINLY OF THE MILK OF THE LETTUCE AND THE LILY.

A simple comparison of this soap with others sold by the perfumery trade, suffices to prove its superiority. It gives the skin a deigh surface, it lathers abundantly, forming a real milk-bath, and is all that can be desired as to perfume.

DENTORINE

AND TOOTH-PASTE.

THE DENTORINE is a pleasant elixir for the teeth; it perfumes and refreshes the mouth, strengthens the gums and prevents decay.

THE TOOTH-PASTE has made quite a revolution in this class of toilet necessary, and has done away with powders and opiates that are more or less acid and dangerous. A brush passed over it produces a soft and unctuous mucilage that gives the teeth a brilliant whiteness.

THE ROSE POWDER

Preserves the skin from the roughness of the wind and the cold, gives it a soft freshness, and prevents red spots and freckles. It is far superior to rice and starch powders, and it is deliciously perfumed.

French Medicines,

PREPARED BY

GRIMAULT & CO.

Chemists to H.I.P. Prince Napoleon,

PARIS.

THESE different medicines represent the most recent medical discoveries, founded on the principles of Chemistry and Therapeutics. They must not be confounded with secret or quack medicines, as their names sufficiently indicate their composition; a circumstance which has caused them to be appreciated and prescribed by the Faculty in the whole world. They widely differ from those numerous medicines advertised in the public papers as able to cure every possible disease, as they are applicable only to but a very few complaints. The most stringent laws exist in France with regard to the sale of medical preparations, and only those which have undergone an examination by the **Academy of Medicine** and have been proved efficacious, either in the hospitals or in the practice of the first medicalmen, are authorised by the Government. This fact must be a guarantee for the excellence of **Messrs. Grimault et Co.'s** Medicines.

NO MORE COD LIVER OIL!

Grimault's Syrup of Iodized Horse Radish.

This medicine has been administered with the utmost success in the Hospitals of Paris. It is a perfect substitute for Cod Liver Oil, and has been found most beneficial in **Diseases of the Chest, Scrofula, Lymphatic Disorders, Green Sickness, Muscular Atony, and Loss of Appetite.** It regenerates the constitution in purifying the blood, it being the most powerful depurgative known. It has also been applied with happy results in **Diseases o the Skin.** Further, it will be found to be of great benefit to young children subject to **Humors and Obstructions of the Glands.**

CONSUMPTION CURED!

Grimault's Syrup of Hypophosphite of Lime.

This new medicine is considered to be a sovereign remedy in case of **Phthisis** and other **Diseases of the Lungs.** It promptly removes the most serious symptoms. The cough is relieved, night perspirations ceas and the patient is rapidly restored to health.

N.B.—Be sure to see that the signature of **Grimault & Co.** is affixed to the bottle, as this Syrup is liable to imitations.

NO MORE DIFFICULT OR PAINFUL DIGESTION!

DR BURIN DU BUISSON'S

(Laureate of the Paris Imperial Academy of Medicine

DIGESTIVE LOZENGES

This delicious preparation is always prescribed by the most reputed medical men in France in cases of derangements of the digestive organs, such as

Gastritis,
Gastralgia,
Long and Laborious Digestion,
Wind in the Stomach and Bowels,
Eunciation,
Jaundice, and
Complaints of the Liver & Loins

NERVOUS HEADACHE,
NEURALGIA,
DIARRHŒA, DYSENTERY,

INSTANTLY CURED BY

Grimault's Guarana.

This vegetable substance, which grows in the Brazils has been employed since time immemorial to cure **Inflammation of the Bowels.** It has proved to be of the greatest service in cases of **Cholera,** as it is a preventive and a cure in cases of Diarrhœa.

NO MORE COPAIBA OR CUBEBS!

Grimault's Capsules and Liquid Extract of Matico Vegitalis.

Where all other preparations have failed these preparations will always effect a cure. These insure rapid and extraordinary cure of severe recent and chronic cases of private diseases. They are used in the hospitals of Paris, by the celebrated Dr Ricard, and found greatly superior to all hitherto known mineral remedies and Copabia and Cubebs. The injection is used in recent, and capsules more chronic cases.

TO THE UNFORTUNATE

NEW REMEDIES, NEW REMEDIES.

Dr Gibbon's Dispensary,

616 KEARNEY STREET, NEAR Commercial, San Francisco, Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhea, Gleet, Stricture, Syphilis, in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases (of years standing) and Ulcerated Legs successfully treated.

DR. GIBBON has the pleasure of announcing that he has returned to this State, after an absence of one year during which time he visited all the principal Hospitals of Europe, among them those of Dublin, London and Paris. The following celebrated Hospitals of London are among those visited by the Doctor: Guy's, High street, Borough; St. Bartholomew's, Smithfield, St. Luke's, Old street; St. Mary's, Camb. Place, Pad.; Lock, Harrow Road; University, Gower street; Westminster, Broad Sanctuary; Charing Cross, Agar street, Strand; London, Whitechapel Road; Royal Free, Gray's Inn Road; King's College, Portugal street

DR. GIBBON has spared neither time nor money in seeking out new remedies, and has returned with increased facilities for the alleviation of human suffering.

Horrible Diseases.

How many thousands of persons, both male and female are there who are suffering out a miserable existence from the effects of secret indulgences, or from virus absorbed into the system. Look at their pallid, emaciated and disfigured faces, and their broken down constitutions, disqualifying them from the happiness of marriage or of the enjoyment of life. In this horrid situation, thousands suffer until death closes the scene. Let parents, guardians, friends, attend to those who are suffering with any of these horrible, life-destroying maladies—see that they are cared for, and cured before it be too late. Send them immediately to DR. GIBBON, a physician who has made private diseases his especial study for years, who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended Doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful, and make strict inquiry, or you may fall into the hands of those charlatans.

Seminal Weakness.

Seminal Emissions, the consequence of self-abuse. This solitary vice, or depraved sexual indulgence, is practised by the youth of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures, viz.: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes; pimples and various eruptions about the face, furred tongue, fetid breath, coughs, consumption, night sweats, monomania and frequent insanity. If relief be not obtained, should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure. Dr G. will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco quacks.

MARRIED MEN.

Of those who contemplate marriage, who are suffering under any of these fearful maladies, should not forget the sacred responsibility resting upon them nor delay to obtain immediate relief.

DR GIBBON is responsible, and will give to each patient a written instrument, binding himself to effect a radical and permanent cure, or make no charge.

Cured at Home.

Persons at a distance may be CURED AT HOME, by addressing a letter to Dr Gibbon stating case, symptoms, length of time the disease has continued, and have medicine promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions for use. By enclosing $15 in currency or $10 in coin, in a registered letter through the Post office or through Wells Fargo & Co., a package of medicine will be forwarded by express to any part of the Pacific Coast.

Address Dr J. F. Gibbon, 616 Kearney street, corner Commercial, San Francisco.—Post office box 252.

Remember to put BOX 252 on the letter.

Consultations FREE.

☞ Correspondents will please inform Dr Gibbon that they read his advertisement in the British Colonist.
